WEDNESDAY, APRIL 9

THE STATE FACTORY.

The State mill has been on a constant grind this session in Washington and the Republican majority have had it all their own way. They have succeeded in grinding out half a dozen new states, full pledged sisters to the old standby's who made the Union what it is today.

The brilliant editor of the New York Sun calls it "the outrage of the year" in a double headed editorial and more than this he proves that it is an outrage.

"Take the question of representation in the Senate," he says. "The six new States will have twelve Senators. At their last election the aggregate vote cast in North Dakota, South Dakota, Montana, Idaho, Wyoming, and Washington was 247,213. The population indicated by this vote will exert in the Senate just as much influence upon legislation as the six States of New York, Pennsylvania, Ohio, Illinois, Indiana, and Missouri, which have twelve Senators, and at the last presidential election cast five million votes. The advantage is as twenty to one."

This is a state of affairs never perhaps contemplated by those wise fathers of ours who framed the constitution and is but another strong argument for the abolition of the Senate. The body is not in the least a popular one; it is not of the people, and of late years has become nothing more or less than a roost for retired millionaires, solemn owls, who set on soft cushions and look important.

The time is gradually drawing nearer when the people will see the uselessness of a Senate. It smacks too much of the House of Lords for them; it has too much the favor of a chestnut.

AGAINST THE BUSTLE.

The reign of the bustle is not yet at an end. More's the pity, for one could hardly find a man, or a woman, either, for that matter, who will not admit that it is a relic of barbarism and should be done away with.

Even the casual observer strolling along Roanoke's principal thoroughfares will notice the difference in the appearance of wearer of a bustle and the woman who does not. The garments of the latter cling to her in cool looseness, allowing a freedom of locomotion that must be exceedingly comfortable. In strange contrast does the bustle wearer appear, dragging behind her the clumsy load of wire and cloth looking not unlike a railroad engine with a tender.

It seems strange to the masculine observer that the dear girls do not see it in same light as he does. For years we have fought the bustle, but all the time we have been paying for them. Now that we have the upper hand, why not give the old relic the finishing blow by refusing to pay. Then, and not till then, we are afraid, the bustle will flourish in the land.

NO JEALOUSY HERE.

Roanoke is forging ahead. Her population is increasing; her industries multiplying; property of all kinds appreciating in value. The Magic City, though in a swampy locality (some parts of it), is on a solid foundation. It would be difficult to drop a dollar there without finding two in its stead in a reasonably short time. All Fredericksburgers at Roanoke are prospering and happy. I fear, however, there are unnecessary jealousies between Salem and Roanoke which are liable to work to the disadvantages of both places. —Fredericksburg Free Lance.

Thanks, awfully, Mr. Woltz, for your remarks about Roanoke, but you are entirely mistaken in thinking that Roanoke and Salem are in the least antagonistic. Quite the reverse. We are glad to see our sister city increase; her prosperity is ours, and there is no rivalry between us. Wait until the street car line between the two places is established and the country built up, then you will see the two cities become one, and it will not be a great while, either.

By a mistake of the printer in our dispatches from Washington yesterday we failed to give the date upon which the Pan-American Congress would arrive in this city. They will reach here Wednesday May 7 at 3 o'clock p. m., and remaining all night, leave for Natural Bridge at 7 a. m. They will also stop at Lunay on their way to Washington.

CHICAGO has no monuments of her own, but she is reaching out her arms for those of old Virginia. Libby Prison is gone; now they are after John Brown's fort, and a syndicate has a cinch in Appomattox. What's the matter with changing Mount Vernon and Arlington?

OUR HOLE IN THE GROUND.

It is now claimed that Roanoke has discovered a cave, the mouth of which is on the property of the Allegheny Institute, and it promises to lay bare the shade. If this be true, Roanoke can spread herself with a new rock company, in which everybody can get in on "the ground floor." —D. Anville Register.

They didn't give us a chance at it, brother, or the company would be on hand this morning. The owner seemed to be afraid that the Imperial Jags would appear and carry us all down to see McGinty.

Why, certainly, Speaker Reed can pass the new Tariff Bill by one of his now celebrated quorums.

WE CAN AND DO.

Guarantee Dr. Acker's Blood Elixir, for it has been fully demonstrated to the people of this country that it is superior to all other preparations for blood diseases. It is a positive cure for syphilitic poisoning, ulcers, eruptions and pimples. It purifies the whole system and thoroughly builds up the constitution. Sold by Budwell, Christian & Barbee.

Treasurer Archer has so endeared himself to the state of Maryland that the governor refuses to accept his proffered resignation.

A CHILD KILLED.

Another child killed by the use of opiates given in the form of soothing syrup. Why mother give their children such deadly poison is surprising when they can relieve the child of its peculiar troubles by using Dr. Acker's Baby Soother. It contains no opium or morphine. Sold by Budwell, Christian & Barbee.

GRAHAM TAZEWELL COUNTY VA.

The Graham Land and Improvement company will offer for sale on

Thursday, April 10th

at 10 o'clock, at the office of the company in Graham, town lots, as shown on plan, now ready for distribution.

TERMS OF SALE.—One-third cash, one-third in one year, one-third in two years, with six per cent interest per annum on the deferred payments.

Applications for lots at the company's prices will be received up to noon on Tuesday, April 8th, 1890.

Parties making application by letter will be careful to designate the section and the number of the lot or lots desired.

Lots for which more than one application shall be received will be sold to the highest bidder at Public Auction on Thursday, April 10th, at 10 o'clock, at the office of the company in Graham.

After the public sale of lots above mentioned, the balance of the lots remaining unsold will be offered to the public at the prices fixed by the company, which range from \$125 to \$500 each according to location.

The Graham Land and Improvement company has purchased about 900 acres of land, including the old town of Graham, at the junction of the Clinch Valley and Ohio Extension of the Norfolk and Western railroad in Tazewell county, Virginia, and has improved the property by laying it out in streets and lots.

The land is so situated, being at the junction of two important branches of the Norfolk and Western railroad, with the Bluestone river running through it, and in close proximity to the Pocahontas coal field, and the iron ore deposits of the Clinch Valley, that it is believed it will within a short period become an important iron manufacturing centre, as well as a distributing point for the entire coal field.

The Clinch Valley and the Ohio extension of the Norfolk and Western railroad runs through a section of country heavily covered with poplar, white and chestnut oak timber, and it is believed that Graham at the junction of these two branches is a most desirable location for the establishment of saw mills, taneries, pulp mills, and other wood-working establishments.

The following desirable industries have already been secured:

The Graham Furnace company, with a capital of \$250,000, have under construction an iron furnace; dimensions, 16x70 feet, with a capacity of about 100 tons per day, and expect to be in blast by November first.

The Virginia Lumber company, with a capital of \$50,000, are erecting their buildings and will be in operation by the first of May.

Arrangements are also being made with parties who propose building a large general supply store and warehouse, buildings to cost about \$10,000, and having a working capital of not less than \$50,000.

A company with a capital of \$20,000 is also formed for the manufacture of ice, and expect to be in operation in the course of a few months.

The Graham Land and Improvement company have plans perfected for
